HOST A WHEELCHAIR FOOTBALL CLINIC

We believe that football is for everyone. Help break down the skills and development model for your athletes by hosting a clinic and introducing them to this exciting new sport. Participants will learn the basics of wheelchair football, such as chair skills, passing, catching, ‘tackling’ and more.

Clincics can be adjusted based on participant numbers, participant skill levels, space availability, and more.

WHAT YOU NEED

A VENUE:
The USA Wheelchair Football League plays on a field 60 yards long by 22 yards wide. For a clinic, a full sized field is not required, as the game can be adapted.
Consider:
- Large Indoor Sports Court
- Large Outdoor Parking Lot

HAVE THE ATHLETES, BUT NEED SOMEONE TO LEAD?
We're happy to help connect you to appropriate clinicians who have experience working with athletes at a variety of levels.

CLINICIANS & OFFICIALS:
Depending on the needs of your athletes, a clinic should run on a 10:1 participant to adult ratio. For athletes with lower skill levels or more needs due to disabilities, more volunteers may be needed.
Officials are only required if you plan to run a full scrimmage.

HOW CAN WE HELP YOU

PROVIDING CURRICULUM & CLINICIANS

Have the athletes, but need someone to lead?
We're happy to help connect you to appropriate clinicians who have experience working with athletes at a variety of levels.

PROVIDING EQUIPMENT AS NEEDED

Disabled Sports USA has a kit of wheelchairs, footballs, practice jerseys, yard markers, cones and more to help you put on your clinic.*

HAVE A CLINICIAN, BUT NEED HELP PLANNING YOUR CLINIC DRILLS?
Contact us for practice plans and sample curriculum appropriate for your athletes.

*Host organization may need to cover costs of shipping the equipment as well as replacing damaged equipment.
